

BENJAMIN SUNDAR F

Data Analytics & Business Operations

Chennai, Tamil Nadu, India | +91 89251 33425 | tennyson0403@gmail.com | linkedin.com/in/benjaminsundar

PROFESSIONAL SUMMARY

Detail-oriented Commerce graduate specializing in Business Mathematics and Data Analytics, currently processing escrow insurance invoices and payment disbursements for JPMorgan Chase at Accenture. Skilled in Advanced Excel, Power BI, MySQL, and Tally Prime, with hands-on experience in investor-compliance validation, payment documentation control, and multi-tracker reporting. Certified across Python, MySQL, Tally, Advanced Excel, and HTML/CSS. Seeking to apply strong analytical skills and process discipline to data-driven roles in analytics, finance, or business operations.

CORE SKILLS

- Banking & Insurance Operations: Escrow Loan Processing, Insurance Invoice Validation, Payment Disbursement, Investor Compliance
- Data & Analytics: Power BI, Advanced Excel (PivotTables, Dashboards, Macros), MySQL, Python (Pandas, NumPy)
- Tools & Platforms: Clarifire, Tally Prime, MS Office Suite, MS PowerPoint, HTML & CSS
- Core Strengths: Documentation Control (G5/G2), Audit-Readiness, Business Reporting, Problem-Solving, Team Collaboration

PROFESSIONAL EXPERIENCE

Banking Associate — Accenture — Escrow Insurance Processing, JPMorgan Chase 2025 – Present

- Process insurance invoices for escrow loan accounts, validating claims and disbursing payments directly to servicing agents and vendors.
- For investor-coded loans, secure written email confirmation from relevant stakeholders prior to processing payment, ensuring adherence to investor-specific approval protocols.
- Generate G5 payment-proof documentation (amount disbursed and payee details) and G2 final cheque documentation, maintaining strict no-reprint controls on issued cheques.
- Coordinate FedEx dispatch of finalized payment documentation to ensure timely, accurate delivery to clients and agents.
- Roll processed transactions into the Strategy tracking tool for real-time visibility and reporting.
- Maintain and update multiple Excel-based trackers — Disbursement, Discarded (duplicate/resubmitted loan payments), Clarifire, and POP (investor approval tracking) — using macros to streamline validation and reduce manual errors.

ACADEMIC PROJECTS

- Retail Sales Dashboard (Excel): Built interactive dashboards using PivotTables and charts to visualize sales trends, improving reporting insight by 30%.
- Customer Analysis (Python): Cleaned and analyzed datasets using Pandas to identify customer behavior patterns.
- Basic Financial Ledger (Tally Prime): Recorded transactions and generated ledgers for academic coursework.

CERTIFICATIONS

Python Programming • Advanced Excel • MySQL • Tally Prime • HTML & CSS • Data Science Combo Course (Python, Advanced Excel, Tally Prime) — all from Apollo Computer Education

Data Analytics with Excel — TNSDC
